RESOLUTION

THE FOLLOWING RESOLUTION WAS ADOPTED AT THE
REGULAR MEETING OF THE BOARD OF COUNTY
COMMISSIONERS OF SEMINOLE COUNTY, FLORIDA, ON THE
____ DAY OF ____, A.D., 2003.

WHEREAS, Seminole County, a political subdivision of the State of Florida, is the owner and operator of the Seminole County Wastewater System (Systems); and

WHEREAS, pursuant to provisions of law, it is incumbent upon this board of County Commissioners to set rates, fees and other charges for services furnished by the Systems that are just and equitable to all classes of consumers served and properties benefited by the Systems; and

WHEREAS, studies have been performed for the Systems resulting in rates, fees and other charges proposed to reasonably recover the costs of serving the various classes of consumers and properties benefited thereby; and

WHEREAS, Section 270.183, Seminole County Code, provides that the Board of County Commissioners may, from time-to-time, establish by Resolution such water system and wastewater rates, fees and charges as shall be necessary to meet the obligations relating to the operation of the Systems as well as to comply with the regulatory agencies requirements; and

WHEREAS, the Board of County Commissioners desires to adopt a Resolution to include all charges and fees imposed pursuant to the Seminole County Water System and Wastewater System Rate Ordinance,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF SEMINOLE COUNTY, FLORIDA:

SECTION 1. CONNECTION FEES AND GENERAL CONDITIONS. Connection fees for water and wastewater service are established based upon the estimated amount of water usage and wastewater flow generated by a development on an average daily basis as computed for a one (1) year period, as proposed by the consumer, and agreed to by the Department of Environmental Services (Department) in accordance with Water and Wastewater Service Capacity Guidelines set forth in Exhibit "A." Connection fees for water and wastewater service shall not be waived for any reason or condition. For the purpose of assessment of fees And charges and "Applicant" shall be defined as any consumer requesting service including, but not limited to, developers and contractors.

SECTION 2. WATER SERVICE CONNECTION FEES. The water connection fee is a one (1) time charge for water predicted on the costs of treatment, transmission, plant capacity and associated capital costs. Water service connection fees shall be computed based upon estimated average daily consumption utilizing the capacity factors as approved by the Department and outlined in Exhibit "A". The minimum amount of purchase shall be one (1) equivalent residential connection (ERC). The fee shall be \$2.83 per gallon. If water service is to be provided from an entity other than the County, the County may require an additional fee on the water service connection fees to recoup the actual cost of the service provided by the other entity.

SECTION 3. WASTEWATER SERVICE CONNECTION FEES. The wastewater service connection fee is a one (1) time charge for wastewater predicated on the costs of treatment plant capacity, effluent disposal systems and associated capital costs. Wastewater connection fees shall be computed based upon estimated average daily flows utilizing the capacity factors as approved by the Department and outlined in Exhibit "A". The minimum amount of purchase shall be one (1) ERC. This is equivalent to the capacity requirements of a standard single-family residence. The fee shall be \$7.00 per gallon. If service is to be provided from an entity other than County, the County may require an additional fee on the wastewater connection to recoup the actual cost of the service provided by the other entity.

SECTION 4. PAYMENTS OF FEES. An Applicant may apply to the Department to purchase water service capacity, wastewater capacity or both. Based upon the amount of water and wastewater service demand estimated by the Applicant and agreed to by the Department, the Department shall allocate water service capacity, wastewater service capacity, or both, and reserve capacity to the Applicant pursuant to a Conditional Utility Agreement between parties. The Applicant shall pay a connection fee for said allocation within two (2) years of final plan approval or building permit issuance, whichever occurs first, with regard to all other development. Additional connection fees may be assessed in accordance with the terms and conditions of the Rate Ordinance.

SECTION 5. INDUSTRIAL WASTEWATER DISCHARGE PERMIT FEES. Some industrial users may be required to obtain a permit pursuant to the Industrial Pretreatment Ordinance. Such users shall apply for a permit and pay a permit fee according to the schedule set forth in Exhibit "B".

SECTION 6. WATER SERVICE INSTALLATION CHARGES.

1. SINGLE FAMILY RESIDENTIAL SERVICE

POTABLE SERVICE CONNECTIONS

(a). There shall be a charge collected in advance from each Applicant requiring a potable service connection from the County associated with the installation of a water meter and connection from the County associated with the installation of a water meter and connection (service tap) to the County Water System. The installation charges shall be in addition to the Water Connection Fees and the established monthly charges for service. If the service tap has already been installed by an entity other than the County and subsequently dedicated to and accepted by the County, the Applicant shall be charged only the meter installation charge. If the service tap is to be or has been installed by the County prior to the installation of the meter, the Applicant shall be charged for the service tap. If the Applicant performs the installation of the meter assembly meter, meter service box, backflow prevention device, and keyed curb stop for connection up to and including one inch (1"), the Applicant may purchase the materials from the County. For installation greater than one inch (1"), the Applicant shall be billed for the actual cost of the materials as determined by the County. The water service installation and other charges are outlined in Exhibit "B".

(b). For County installed connections requiring installation of a meter and backflow prevention devices of one (1") or less, the charges for installation or connection to the water system can be increased when any size connection or meter and backflow prevention device installation requires larger than typical service lines, or service connections require the crossing of streets, roads, easements, or highways, or it has been determined by the Department that the cost of installation is extraordinary or not typical in nature. The County shall base the increased charges on the additional construction costs incurred or determined on the basis of additional cost of materials, inspection and overhead required to perform the installation. A County installed connection shall be defined as those requests for connection from an Applicant for the purpose of providing water service to a single residence.

(c) For connections requiring an installation of a meter size greater than two (2) inches, the charges for installation on connection to the water system shall be based on the actual cost of materials, labor, and overhead as determined by the Department. The Applicant requesting the installation and connection shall pay an estimated charge for the connection of service as required by the Applicant and shall be charged or refunded an amount equal to the difference between the actual cost of the installation and the estimate charge. An Applicant may elect to purchase the meter elsewhere if the required meter size exceeds two inches (2") provided, however, that such meter must be approved by the Department prior to installation. The

Applicant shall be responsible for separately purchasing an approved backflow prevention devices for pipe diameters larger than one inch (1").

(d) The charge for separate potable irrigation meters shall be determined based upon the location of the property provided the service. The costs of meter installation shall include, but not be limited to, the meter set fee, materials, labor and any other expenses incurred for installation of the meter. An Applicant for irrigation meter(s) shall be responsible for the purchasing and installation of approved backflow prevention devices.

2. COMMERCIAL SERVICE

POTABLE AND NON-POTABLE CONNECTIONS

(a) Each Applicant shall be responsible for the design, permitting, construction and inspection of the service connection, including, but not limited to, the water main tap, service line, valves, corporation stop, meter, meter box, curb stop and backflow prevention assembly by a plumber or certified underground utilities contractor, and any construction requiring street, road or highway crossing. Connections to the County's potable or reclaimed water systems, or any construction within County easements, property, or rights-of-way shall be performed by properly licensed and qualified individuals or contractors as determined by the County.

(b) A site plan, including details, shall be submitted to the Development Review Division of the Planning Department for approval prior to application for service. The site plan shall include a site location map and show the location of the proposed connection point, the property line, tap size, service line size, meter size, backflow prevention assembly size and type, meter set location and any other information requested by the Department to facilitate review and approval. The details and materials of construction shall conform to applicable Seminole County Water and Wastewater Standards.

(c) Irrigation meters, including reclaimed water irrigation meters, shall be installed by the Applicant at the Applicant's expense utilizing the criteria set forth in Sections 5.2(a) and (b) above by a plumber or certified underground utilities inspector.

SECTION 7. METER TESTING. Meter testing shall be performed at the Applicant's request in accordance with the following guidelines.

(a) Meter Test Request – When an Applicant requests a field test of the water meter requiring a field visit to the Applicant's service location, the County shall apply a charge to defray the cost of testing in accordance with Exhibit "B."

(b) The charge shall be retained by the County if the Test shows that the meter registers within the acceptable accuracy limits as established by the Department. If the meter is determined by the County to register above the acceptable accuracy limits, the meter test field

service charge shall be refunded, an adjustment made to the bill for the proper amount of water consumption, and the meter replaced by the County at no charge to the Applicant.

(c) For a test of meters not performed as a field services visit, the County shall charge for the test based upon actual costs incurred as determined by the Department.

SECTION 8. DEPOSITS FOR WATER SERVICE AND WASTEWATER SERVICE.

(a) An Applicant shall pay an initial deposit prior to the initiation of water service or wastewater service for each equivalent residential unit to be serviced as set forth in Exhibit "B."

(b) Applicants such as building contractors using fire hydrants as a water supply shall pay an initial deposit for utilization of the temporary hydrant meter prior to initiation of service as outlined in Exhibit "B."

(c) Customers with good payment history accounts for the previous twelve (12) month period shall be entitled to a refund of deposits. For purposes of this section, a "good payment history" shall be defined as an account with no: i) disconnections for non-payment; ii) non-sufficient funds checks charged to the account; or iii) delinquent payment notices.

(d) Customers whose accounts have been disconnected for non-payment three (3) or more times or have issued to the Department two (2) or more non-sufficient fund checks within a twelve (12) month period shall pay an additional deposit as set forth in Exhibit "B" prior to restoration of service.

SECTION 9. INITIATION AND SERVICE CHARGES FOR WATER SERVICE AND WASTEWATER SERVICE.

(a) An Applicant shall be charged to initiate utility service at a new location or to re-establish utility service at an existing location. These charges shall appear on the first bill for utility service. The re-establishment of utility service at an existing location does not include the turn-on of an account ordered discontinued because of non-payment of amounts due. The initiation of service charge shall be in accordance to the schedule of fees shown on Exhibit "B."

(b) At the request of the Applicant, a turn-one or turn-off service charge applicable to active accounts shall be charged prior to the initiation or discontinuation of service on a temporary or seasonal basis. The fees for these services shall be in accordance with Exhibit "B".

(c) When service is discontinued by the Department because of non-payment of amounts due, the County shall charge a service disconnection charge to reconnect the discontinued service as set forth in Exhibit "B." The charges for the re-establishment of service shall be paid by the Applicant prior to initiation of service.

SECTION 10. WATER SERVICE CHARGES.

(a) Customers shall pay a monthly water service charge in addition to a volumetric rate based on metered water consumption for such service as set forth in Exhibit "B," Water Service Charges.

(b) Homebuilders and contractors shall pay a monthly capacity reservation charge per ERC, in accordance with Exhibit "B" for construction water service capacity, upon issuance of a building permit until such time as the account shall be transferred to a customer or tenant.

(c) Homebuilders and contractors using fire hydrants as a water supply shall meter the consumption pursuant to County requirements and pay a volumetric service charge as set forth in Exhibit "B." A meter and backflow preventor assembly device shall be provided by Seminole County upon application for hydrant service and payment of the temporary hydrant meter deposit. Deposits shall be refunded if the meter and backflow assembly device are returned undamaged and in good condition.

(d) Commercial private fire lines shall incur a monthly service charge associated with the cost of providing back-up facilities in the Water System.

(e) All Applicants who reserve water service capacity shall incur a monthly service charge per ERC. Such charge shall be assessed for each remaining unit or ERC not transferred to a resident or tenant within twenty-four (24) months from the date that infrastructure is accepted by the County or the date of final inspection with regard to private systems.

(f) Wholesale water fees shall be based upon metered consumption and the wholesale water rate in accordance with Exhibit "B."

(g) In the event the County adopts a Resolution pursuant to Part 5, Chapter 270, Seminole County Code, or its successor, declaring a water shortage by the St. Johns River Water Management District or regulating water supplies or conservation programs as deemed necessary, a surcharge as set forth in Exhibit "B" shall apply to the schedule of water service charges for residential units. Accordingly, multi-family units, apartments, condominiums, motels, hotels, and any and all other dwelling units, per unit, and commercial users, shall be charged by the County pursuant to Exhibit "B" for consumption over 10,000 gallons per month, or any fraction thereof.

SECTION 11. WASTEWATER SERVICE CHARGES.

(a) Applicants shall pay a monthly wastewater service charge in addition to a volumetric rate based upon metered water consumption and costs for such services as set forth

in Exhibit "B." In the event of no consumption, the minimum bill for wastewater service shall be charged.

(b) Volumetric charges for sewage treatment shall be based on water consumption. Volumetric wastewater service charges shall not be assessed for residential units for water consumption in excess of fifteen thousand (15,000) gallons per month per ERC.

(c) Homebuilders and contractors shall pay a monthly capacity reservation charge per ERC for wastewater service capacity upon issuance of a building permit until such time as the account shall be transferred to a customer or tenant.

(d) All Applicants who reserve wastewater service capacity shall incur a monthly service charge per ERC. Such charges shall be assessed for each remaining unit or ERC not transferred to a customer or tenant within twenty-four (24) months from the date that infrastructure is accepted by the County or the date of final inspection with regard to private systems.

(e) Wholesale wastewater treatment fees shall be based on metered wastewater flow and the wholesale wastewater rate in accordance with Exhibit "B."

SECTION 12. SCHEDULE OF RECLAIMED WATER. Reclaimed water charge is established at the rate set forth in Exhibit "B." Charges shall be based upon metered consumption.

SECTION 13. SCHEDULE OF RECONNECTION CHARGES.

(a) If a bill for water service is unpaid after thirty (30) days, water service may be disconnected by the Department and the customer whose bill is past due shall not have service reconnected until all charges are paid in addition to applicable reconnection fees (Exhibit "B").

(b) If a bill for wastewater service is unpaid after thirty (30) days, water service may be disconnected and the customer whose bill is past due shall not have service reconnected until all past due charges are paid in addition to applicable reconnection fees (Exhibit "B").

SECTION 14. SURCHARGE FOR HIGH-STRENGTH WASTEWATER. A surcharge shall be charged for disposal of wastewater with an abnormally high biochemical oxygen demand (BOD), total suspended solids (TSS) and other parameters as established by the Industrial Pretreatment Ordinance in accordance with Exhibit "B."

SECTION 15. INDUSTRIAL PRETREATMENT FINES AND PENALTIES. Industrial Users in violation of the Industrial Pretreatment Ordinance shall be subject to fines or penalties as set forth in Exhibit "B".

SECTION 16. UNAUTHORIZED METER TURN-ON CHARGE. Unauthorized customers who restore water service previously discontinued by the County shall pay a fee in

accordance with Exhibit" B." Service shall not be restored until all outstanding fees and charges are paid to the County.

SECTION 17. OTHER REIMBURSED EXPENSES. In cases where customers request County utility personnel to perform specific utility services not the obligation of the County to perform, a fee shall be charged to recover those costs incurred by the County in performing such services. The fees for such specific services are reflected in Exhibit "B."

SECTION 18. RETURNED CHECKS. A service charge shall be charged for a check returned for non-sufficient funds in accordance with Exhibit "B."

SECTION 19. REPEAL. Resolution number _____ establishing fees for water and wastewater and all other Resolutions or parts of Resolutions, if any, in conflict herewith are hereby repealed.
